3. Given that the Hong Kong City Hall is a Grade I historic building, is the proposed expansion in line with the development of Site 3 of the new Central Harbourfront? If so, what are the details? If not, what are the reasons?

Asked by: Hon KWOK Ka-ki (LegCo internal reference no.: 389)

Reply:

The proposed expansion and renovation of the Hong Kong City Hall (City Hall) aims to provide additional performing and rehearsal facilities as well as to enhance the existing facilities to meet modern day needs. As the project is still under preliminary planning and feasibility study, project details including the scope, construction schedule and estimated cost are being worked out. The planning and design will take due account of the heritage status of the City Hall as a Grade I historic building and all relevant planning parameters for the site.

The Leisure and Cultural Services Department will consult relevant stakeholders including the District Council, the Harbourfront Commission, relevant committees and art groups upon completion of the feasibility study.
