

Airborne, over Indo-China
8/11/49

Dear Mr Chan:

I feel very badly for not getting in touch with you again over my "Portrait". Actually the last few days have been one continuous rush of arranging our luggage, passports, leave taking, not to mention the business of getting married! I do hope you & your husband will forgive me for wasting two hours of his valuable time on Sunday.

You will be pleased to hear my husband & I have been doing some valuable propaganda on behalf of Mr Chan. The Governor was most impressed with his work and is likely to order a bust. He has already spoken to Sir Robert Ho Tung (H.E. is the Chancellor of the University) suggesting that a bust should be made for the new Women's Hostel. So I think that should be forthcoming very soon.

Mr Arthur Morse wants a small plaque
and I suggest you call on Mrs Morse to discuss
this. She wants of her husband a small
oral medallion about 10 inches long in
low relief.

I do hope you will find these orders
preferable in every way. It does, however, rest
with you & your husband to pursue these people.
We suggest you visit Mr Arthur Morse first -
She will talk to the Governor, and you should
write to Sir Robert.

With best wishes,

Yours,

Mrs G. H. St. J.

P.S. The plaque of my Duncan is in
our heavy luggage. I will find a
place of honour for it. Very many
thanks!
